Education

Bachelor of Science

University of Oregon

General Science, minors in Chemistry and Biology

2004

Master of Physician Assistant Sciences

Loma Linda University

2007

Experience

Emergency Medicine Physician Assistant

Ventura County Medical Center, Seaside Emergency Physicians

February 2016 to present

- Moderate volume emergency room, 150-175 daily census
- *Duties:* evaluation, diagnosis and treatment of patients ranging from pediatrics to geriatrics. All levels of acuity to include: common, low level acuity to complex medical patients. Minor and complex laceration repair. Stabilization and admission of patients to hospitalist service and/or transport to a higher level care. Stabilization of orthopedic injury including fracture, splinting and dislocation reductions. Medical screening with appropriate lab work and imaging. Disposition and aftercare for follow-up

Emergency Medicine Physician Assistant

Palmdale Regional Medical Center, EmCare

March 2013 - present

- High volume emergency room, 240-280 daily census
- *Duties:* evaluation, diagnosis and treatment of patients ranging from pediatrics to geriatrics. All levels of acuity to include: common, low level acuity to complex medical patients. Minor and complex laceration repair. Stabilization and admission of patients to hospitalist service and/or transport to a higher level care. Stabilization of orthopedic injury including fracture, splinting and dislocation reductions. Medical screening with appropriate lab work and imaging. Disposition and aftercare for follow-up
- Conscious sedation, intubation, lumbar puncture, femoral line, external jugular IV, central line access

Regional Wound Care Provider

United Wound Healing

January 2016 - January 2017

- Medical record auditing for UWH providers
- Development of education and training curriculum
- Development of UWH Policies and Procedures Manual
- Development of clinical protocols
- Site visits with new and current providers
- EMR training for current and new providers
- Implementation of Merit Based Incentive Program (MIPS) for Advancing Care Information
- Quality workflow and analysis of gaps in best care practices
- Improvement activities

Emergency Medicine Physician Assistant

Saint Charles Medical Center, Redmond Emergency Room

September 2011 - June 2014

- Low volume emergency room 75-100 daily census
- Evaluation, diagnosis and treatment of low acuity patients ranging from pediatrics to geriatrics
- Laceration repair, fracture and dislocation reduction, and splinting
- Appropriate lab work and imaging. Diagnosis, discharge and aftercare instructions

Neurosurgical Physician Assistant

Northwest Brain and Spine

September 2010 - May 2014

- *Neurosurgical First Assist* in brain and spine cases, including trauma with management of patient's pre/post-surgery, ortho/neuro floor and ICU.
- *Hospital*: daily rounds, progress notes, ordering and evaluation of appropriate labs and diagnostics, discharge summaries
- First call for ED consults and admissions, direct admissions.
- *Clinic*: evaluation, assessment of patients with initial presentation, diagnosis and treatment plan to my attending surgeon. PA post op clinic, charting, clinic mailbox review and return of patient questions and concerns, medication refills
- *Trauma call* : 1-2 times per a week and every fourth weekend

Faculty/Instructor, Neurocritical Care Physician Assistant

Oregon Health & Science University (OHSU)

March 2009 - June 2010

- The Neurocritical care ICU – 17 bed unit. I worked in partnership with faculty attending physicians, neurosurgery, fellows, residents and medical students to provide excellent clinical care in the treatment and management of

complex medical and neurological conditions within the ICU environment with an emphasis in neurocritical care

- Responsibilities: admissions, pre-op workups, appropriate tests, initial care plans, patient stabilization, ACLS, consults with appropriate subspecialist as needed, AM rounding
- Patient population included high acuity post operative patients, brain tumors, subarachnoid hemorrhage, subdural hemorrhage, ischemic and hemorrhagic strokes, Myasthenia Gravis, Guillain Barre, bacterial and viral meningitis.
- Procedures performed: placement of arterial and femoral lines, central venous catheters, subclavian catheters, Swan-Ganz, PICCO , ventilator management, lumbar punctures, chest-tubes, endotracheal intubation-anesthesiology assisted, conscious sedation

Faculty/Orthopaedic Surgical Physician Assistant

The Center, Orthopedic & Neurosurgical Care & Research

September 2007 - June 2010

- *Surgical First Assist*: Foot, ankle and trauma team
- *Hospital*: As an extension of my surgeon I performed: pre and post-operative orders, In-patient admissions, orthopaedic and wound care consults, daily rounding which include decision making per individual surgeon's protocol for all orthopaedic and medical concerns, H&Ps, progress notes, discharge planning and follow-up care, ER consults, work-up and admissions, hematoma blocks, fracture reductions, splint and cast placement
Communication with my surgeon(s) regarding patient status and progress
- *Clinical*: Post op, re-check, new patient exams
- *Wound care clinic*: Management and debridement of minor to complex wounds in high risk patients with diabetes, peripheral neuropathy, vasculopathies, and renal disease
- *In-office procedures*: steroid joint injections, foot, hand, shoulder, knee and hip. I&D of abscesses, Synvisc joint injections, splinting/casting
